

COMMUNIST PARTY USA ELECTION CALL—VOTE NOV. 4th Put People & Nature before Profits

Join us! For information, visit Communist Party USA at cpusa.org

Working Families have suffered from falling wages, loss of rights, endless wars, unemployment, shortage of affordable housing, school closings and more. Election time is a chance to promote a program for progress, make our demands known and elect more progressive candidates.

Restore Democratic Rights. Defeat the Tea Party/Ultra-Right.

We must restore the full right to vote and organize unions, stop the rich 1% from buying elections and save freedom of the Internet.

Stop racist police violence with citizens' review boards and demilitarizing the police.

Protect people's benefits, Social Security, Medicare and Obamacare that are under attack by the ultra-right.

End deportations of immigrant workers and families.

The Tea Party controlled Republican Party is paralyzing Washington and the whole country. Vote them out!

Peace, not War. End the bombing.

Endless War and bombing hurts our economy and only makes terrorism worse. Stop terrorism by ending bombing; freeze the funding of terrorists, and diplomacy. Disarm all nuclear weapons!

Past and present wars eat up our federal budget. Cut the military budget and use that money for people's needs.

Jobs at Family-supporting Wages

As a start, pass Obama's American Jobs Act and Rep. Jan Schakowsky's Jobs

Bill, creating 2 million new jobs. But 18 million more full time jobs are needed!

The federal government must create the jobs for useful work on public works projects. Rebuild the infrastructure, weatherize our homes, build housing for the homeless and clean up the environment.

It's time to shorten the work day to 6-7 hours. Reintroduce the Conyers bill for public works jobs. Raise the minimum wage to \$15/hour with cost of living increases.

Protect Working Families from Climate Change

Switch to clean fuels. Pay wages to displaced workers until other jobs are created for them.

Reduce energy use by building enough public transit, more efficient cars, fixing leaking pipes.

Good Public Education for All

End the harmful privatization of public schools and increase funding for neighborhood schools.

Restore and expand free higher education for all qualified students. Forgive the student debt for those who do public service.

Tax the Rich

Pay for these family-friendly changes by taxing those who can afford to pay.

Put a "Robin Hood Tax on financial transactions. Raise billionaires' taxes back to 1980 rates, before President Reagan lowered them.

End the tax loopholes for the rich. Fair tax systems for states, counties and cities.
